-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE THIRTY DAYS MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3673

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, drawn to a headboard for a bed, classified in class 5, subclass 53.1.
- II. Claims 8-10, drawn to a method for supporting a roller in a headboard, for moving a patient, classified in class 5, subclass 81.1R.

The inventions are distinct, each from the other because:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the headboard of Group I could be used without a roller, as an "aesthetic" headboard, or the recess therein could be used to mount a light, a speaker or a support.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

A telephone call was made to Mr. Logsdon on 11/15/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3673

In order to expedite prosecution, in response to this action, Mr. Logsdon may want to correct figure 7, so that numeral 252 will not identify two different elements; illustrate angle alpha (α) [0027], line 8), and use number 258, in paragraph [0029] to not identify both a gap and a base.

Any inquiry concerning this communication should be directed to Alex Grosz at telephone number 703-308-2498.
